Introduction

Get your pencils out because this sexy drawing book is everything you need to get your imagination running. Standing, sitting, squatting, or bending over, these sexy women will surely arouse your senses with every careful, sensual stroke of your pencil. As you probably guessed, this is a hentai drawing book. No need to be shy. We had just as much fun envisioning these women as you'll have working on the step-by-step outlines.

Whether you fill their curves in with some color or prefer to leave them black and white, the lingerie on each of our muses is exquisite and just the right bit of revelatory. With slick thighs, large breasts, and slim waists, setting this drawing book on your desk is a synonym for relaxation. Our only recommendation is that you're alone so you can enjoy the bliss these beautiful women will bring you with every sketch.
